

Dancer Sets "Bob" Style

Vera Cooper, American dancer, has given Paris a new fad in bobbed hair styles by wearing her "bob" with the hair brushed upward instead of downward in the back. A striking portrait of Miss Cooper and her "wrong way" bob.

Mrs. Harvel Guttenfelder goes in to Chas. Inman to get a bottle of vinegar. Chas. has just moved into the new location and opens up a new case of vinegar and hands a bottle to Mrs. Guttenfelder. When Harvel pours some of the vinegar on his beans that night he notices it ain't vinegar at all but fig wine. Says Chas.: "I'll buy some more vinegar from that same company. Says Harvel: "I don't see why people violate the prohibition law when they can get vinegar like that."

Harvel made another buy that wasn't so lucky. But it helped more. Few weeks ago he went

Lukins demonstrated to Mr. and Mrs. Barnett how they find great rocks projecting up in the water sometimes to within a few feet of the surface, which are a great menace to passing boats. Capt. Lukins and Prof. Barnett were college chums.

Appraiser Boosts Brick as Material For Home Building

According to John P. Kennedy, chief appraiser of the Security Trust and Savings Bank of Los Angeles, the use of brick in the building of residences is the acme of construction. "Wood, concrete, stone and tile all possess excellent qualities," says Mr. Kennedy, "but the brick residence is more satisfactory from an economic point of view than any other form of home building. "Moreover, brick is the cheapest building substance in the long run that can be used," he asserts, "since it is element-resisting, never nearly equalizes temperature, requires little or no attention once completed, and in point of durability is unexcelled. No other material lends itself to art, fancy and design as does brick, and its charm lies in the fact that both in color and form it blends beautifully, and effects most pleasing results when used in conjunction with other structural commodities."

James T. Wise, a constant reader of The Herald, has taken the Enterprise of Belle Vernon, Pa., for about 30 years. The other day he brought in a copy of this well-edited paper and called attention to the following editorial:

"The progressive town is like a fine six or eight cylinder car, purring along evenly as it carries its passengers, the residents of the community, over the hills that stand in the way of prosperity. "But sometimes a good looking town, like many beautiful cars, will roll along evenly while the roads are level, but upon reaching a hill of business adversity will slow up, knock and jerk, and finally come to a dead stop before it reaches the crest. "A missing cylinder, you say? Yes, and that missing cylinder is the man or woman who shows no interest in home town business or in the welfare of the community."

Pretty Peggy Shaw, formerly with Ziegfeld's Follies, is the feminine lead. An "Our Gang" comedy, a Hodge Podge reel, and Episode 6 of "The Vanishing Trails" are also on the bill.
